

A New Place for Ghosts

Cardial (Pedro Quintela)

August 18th 2008

Part One: The Garden

Objectives:

- Retrieve the Romantic Harp.
- Retrieve the Skull of Lord Hagen.
- Retrieve the Violin of love.
- Retrieve the Royal Bellows.
- Find the Sacred Chisel for yourself.
- Find the ancient dagger (Expert).
- Loot Goal: 4520 (Normal), 4720 (Hard), 4920 (Expert)
- Find a way into the mansion when you're done with the previous goals.

Where's the harp?

Take the tunnel in the NE corner of the large compound you start out in. Turn north and look behind a tree along the East wall.

Where's the skull?

Take the tunnel in the NE corner of the large compound and turn left (N). Halfway through this square, there's a water pool (W). Dive in and swim down into the hole.

Where's the violin?

When you start out, go north and take the first left you see. Enter this and look under bushes on the north side.

Where's the bellows?

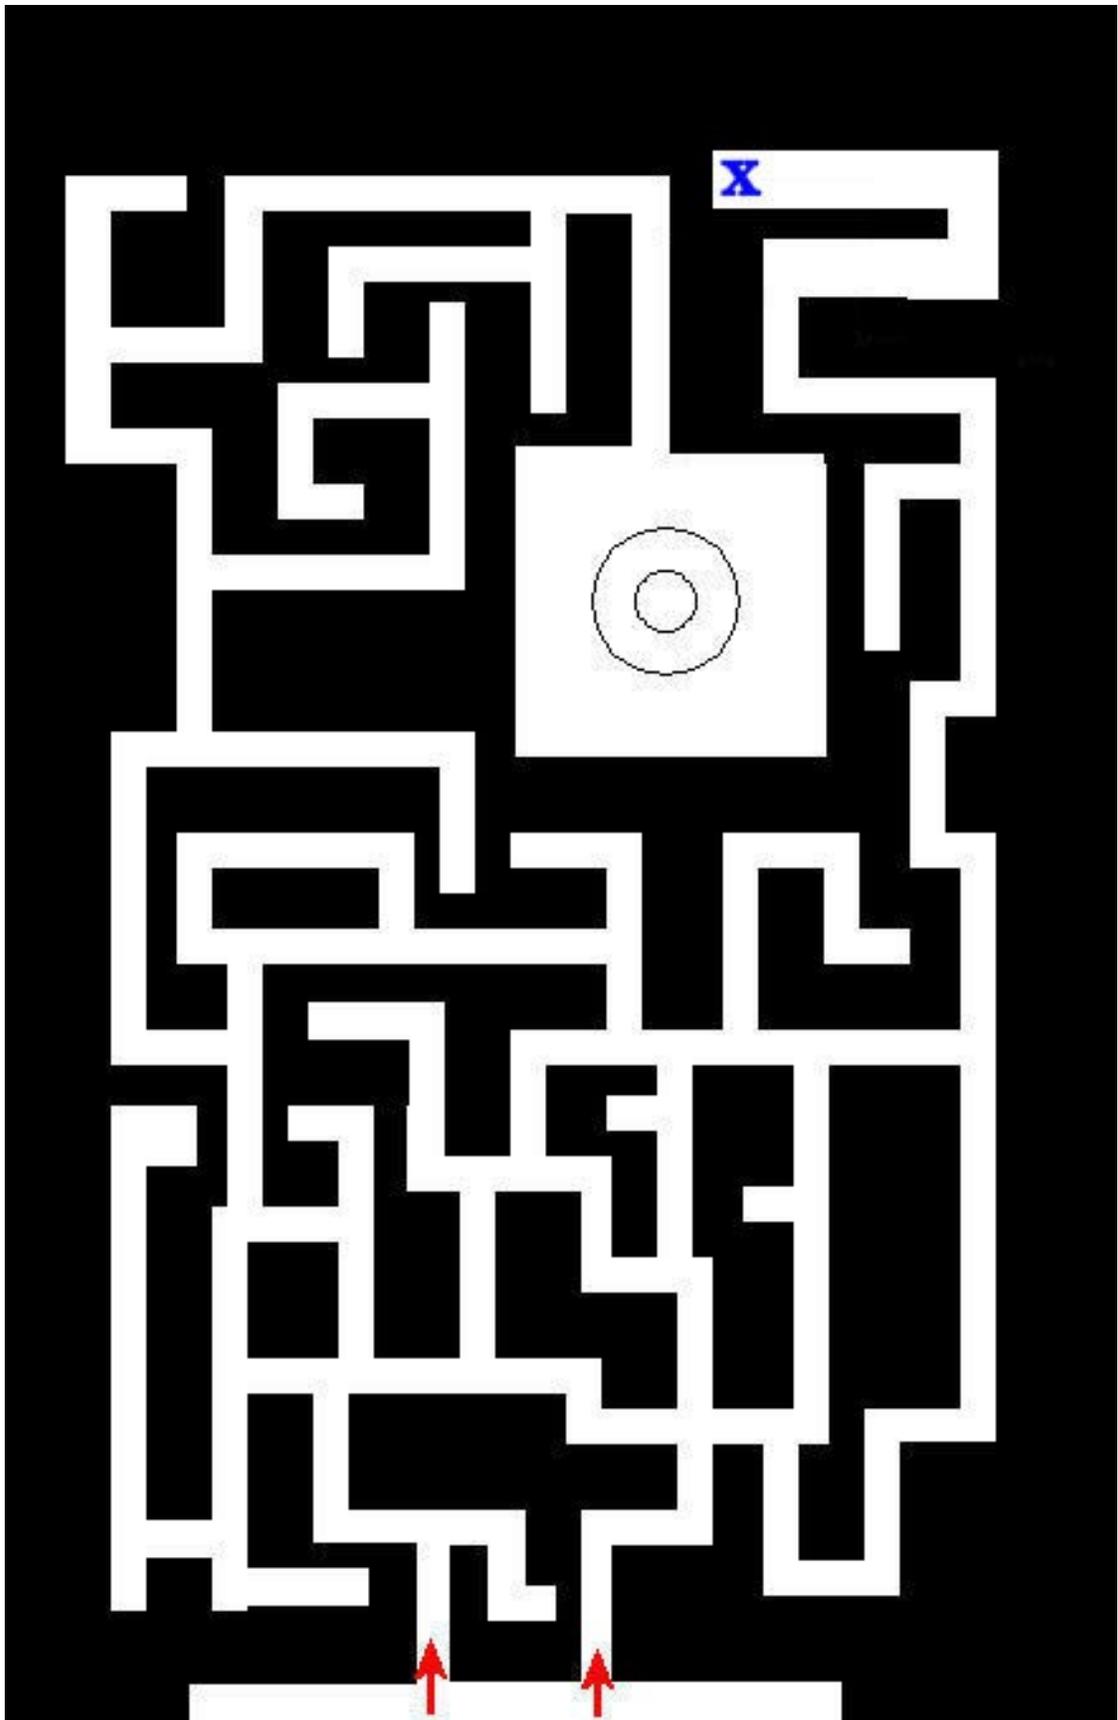

Take the tunnel in the NW corner of the large compound you start out in. Once you're in that square, turn north and enter the next section. Dive into the water in the NW corner.

Where's the chisel?

Enter the cathedral on your right, where you begin the mission. Slash the banner behind the altar.

Where's the dagger?

There's a maze to the north; the dagger is in the northernmost end of it (note blue 'X').

How do I open the north gate?

The lever is on the other side—you'll have to get into the area by an alternate route.

Where's the key to the catacombs door?

Look on the floor behind the statue just to the right of the door.

Where's the key for the door in the wine cellar?

It's behind a crate on the nearby shelf.

I'm in the garden in the maze. Now what?

Look for a small switch by the statue on the south wall. It will open a secret door in the fountain.

Where's the exit?

Once you're in the catacombs, find the locked wine cellar door (east storage room).

Near where the Golden Mask is located, there's a partially invisible character that sounds like a thief.

Where's the Navigator Globe?
